on the situation in central Africa

PE 70.744

The European Parliament,

- Considering the recent events in central Africa, marked by military intervention and external threats which adversely affect the autonomous development of the states concerned and seriously endanger the stability of the region,
  - Noting the relations of good fellowship which have developed between the European Community and almost all the independent African states in the past twenty years, based on agreements and on respect for the independence and sovereignty of all parties,
1. Notes with grave concern the turn being taken by these events;
  2. Emphasizes the danger that they will aggravate the situation throughout central Africa;
  3. Expresses the urgent wish that this danger will pass and that every effort will be made to restore the conditions for peaceful and free cooperation;
  4. Instructs its President to forward this resolution to the Commission and the Council.
